**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**DIRECTORS' REPORT**

The directors have pleasure in presenting their report together with the audited financial statements of the Bank for the financial year ended 31 December 2021.

**PRINCIPAL ACTIVITIES**

The principal activities of the Bank are banking, financing, investment and related services as provided under the Bank Pertanian Malaysia Berhad Act, 2008.

On 1 July 2015, the Bank became a full fledged Islamic bank whereby all its activities are conducted in compliance with Shariah principles.

There were no significant changes in the principal activities during the financial year.

**RESULTS**

	<b>RM'000</b>
Profit before tax and zakat	145,713
Tax	(35,420)
Zakat	(3,643)
	<hr/>
Net profit for the year	<b><u>106,650</u></b>

There were no material transfers to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

In the opinion of the directors, the results of the operations of the Bank during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

**DIVIDENDS**

Since the end of the previous financial year, the amount of dividends paid or proposed by the Bank are as follows:

	<b>RM'000</b>
In respect of the financial year ended 31 December 2020, a final dividend of 0.099 sen on 1,000,000,000 ordinary shares declared on 3 August 2021 and paid on 25 August 2021.	<hr/> <b>990</b> <hr/>

At the forthcoming Annual General Meeting, a final single tier dividend in respect of the current financial year ended 31 December 2021 of 1.50 sen on 1,000,000,000 ordinary shares amounting to dividend payable of RM15,000,000 will be proposed for shareholder's approval.

The financial statements for the current financial year do not reflect this proposed dividend. Such dividend, if approved by the shareholder, will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 December 2022.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**ISSUE OF SHARES AND DEBENTURES**

On 2 November 2021, the Bank issued RM500 million pursuant to a Sukuk Wakalah programme of up to RM1.0 billion nominal value, as disclosed in Note 30 to the financial statements. The proceeds from the issuance will be utilised to finance shariah-compliant general business and working capital purposes of the Bank.

There were no new ordinary shares issued during the financial year.

**SHARE OPTIONS**

No options have been granted by the Bank to any party during the financial year to take up unissued shares of the Bank.

No shares have been issued during the financial year by virtue of the exercise of any option to take up unissued shares of the Bank. As at the end of the financial year, there were no unissued shares of the Bank under options.

**DIRECTORS**

The following directors served on the Board of the Bank since the beginning of the financial year to the date of this report:

Y. Bhg Dato' Mustapha bin Buang

Y. Bhg Datuk Dr Ahmad Kushairi bin Din

Y. Bhg Dato' Haslina binti Abdul Hamid  
(appointed on 15 June 2021)

Y. Bhg Datuk Md Afendi bin Datuk Hamdan  
(appointed on 15 November 2021)

Y. Bhg Datuk Yunos bin Abd Ghani  
(appointed on 17 December 2021)

Puan Azizah binti Abdul Rahman  
(ceased on 1 July 2021 & reappointed on 11 September 2021)

Tuan Haji Ibrahim bin Hassan

Y. Bhg Datin Setia Shahariah binti Hashim  
(resigned on 8 March 2021)

Encik Abdul Rahim bin Abd Hadi  
(resigned on 8 January 2022)

Puan Zarina binti Zakaria  
(resigned on 5 April 2022)

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**DIRECTORS (cont'd)**

The following directors served on the Board of the Bank since the beginning of the financial year to the date of this report: (cont'd)

Puan Faizah binti Abdullah  
(resigned on 18 April 2022)

**DIRECTORS' INTERESTS**

None of the directors in office at the end of the financial year held shares or had beneficial interest in the shares of the Bank during and at the end of the financial year.

There were no arrangements during and at the end of the financial year which had the objective of enabling directors of the Bank to acquire benefits by means of the acquisition of shares in, or debentures of the Bank or any other corporate body.

Since the end of the previous financial year, no director has received or to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by the directors from the Bank and related corporations as disclosed in Note 35 to the financial statements) by reason of a contract made by the Bank or a related corporation with the director or with a firm of which he is a member, or with a company in which he has a substantial financial interest.

**COMPLIANCE WITH BANK NEGARA MALAYSIA'S EXPECTATIONS ON FINANCIAL REPORTING**

In the preparation of the financial statements, the directors have taken reasonable steps to ensure that Bank Negara Malaysia's expectations on financial reporting have been complied with, including those set out in the Guidelines on Financial Reporting for Development Financial Institutions.

**OTHER STATUTORY INFORMATION**

- (a) Before the financial statements of the Bank were made out, the directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowances had been made for doubtful debts; and
  - (ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected to so realise.
- (b) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Bank which would render:
- (i) the amount written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Bank inadequate to any substantial extent; and
  - (ii) the values attributed to current assets in the financial statements of the Bank misleading.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**OTHER STATUTORY INFORMATION (cont'd)**

- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Bank misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Bank which would render any amount stated in the financial statements misleading.
- (e) As at the date of this report, there does not exist:
  - (i) any charge on the assets of the Bank which has arisen since the end of the financial year which secures the liabilities of any other person; or
  - (ii) any contingent liability of the Bank which has arisen since the end of the financial year other than those arising from the normal course of business of the Bank.
- (f) In the opinion of the directors:
  - (i) no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Bank to meet their obligations as and when they fall due; and
  - (ii) no item or transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Bank for the financial year in which this report is made.

**INDEMNIFICATION OF DIRECTORS & OFFICERS**

The Bank maintained a Directors' and Officers' Liability Takaful up to an aggregate limit of RM50,000,000 against any legal liability incurred by the directors and officers in the discharge of their duties while holding office for the Bank. The amount of takaful contribution paid for the directors and officers for the current financial year was RM89,250.

**SIGNIFICANT EVENT**

Details of a significant event is disclosed in Note 39 to the financial statements.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**BUSINESS PLAN AND STRATEGY**

The year 2021 has seen improved economic conditions with containment measures to reduce the spread of ("COVID-19") which has been progressively alleviated. The various relaxations of restrictions for fully vaccinated individuals and series of mitigating economic measures have accommodated gross domestic product ("GDP") expansion of 3.1% from a contraction of 5.6% in 2020.

Going into 2022, as the pandemic situation stabilises and recovery becomes more entrenched, prospect of general economy is expected to gain momentum with unleashed pent-up demand and improved business sentiment. Given that, however, economic growth could be hampered by rising global inflationary pressure which could result in the tightening economic policy, global economy slowdown as well as the recurrence of new COVID-19 variants.

Given a better outlook on the economy and business environment, banking sector growth is expected to continue to be strengthened. The Bank is expected to be able to improve its operational and financial position while actively balancing its developmental and commercial role. The Bank will continue to support funding of the agricultural sector, uplifting the general wellbeing of the B40 within the sector and serving the financing needs along the agriculture value chain. Simultaneously the Bank will intensify effort to grow its balance sheet to improve profitability by improvement in service, increasing financing growth and market share and by optimisation of overhead and funding costs.

The Bank is mindful of the economic challenges of increased inflationary pressure and the potential monetary tightening policy and will align its strategy accordingly to address the implication while committed to remain profitable with strong liquidity and capital.

**HOLDING COMPANY**

The Bank is wholly-owned by the Minister of Finance (Incorporated), held on behalf of the Government of Malaysia.

**AUDITORS**

The auditors, Messrs. Ernst and Young PLT, have expressed their willingness to continue in office.

The auditors' remuneration is disclosed in Note 11 to the financial statements.

Signed on behalf of the Board in accordance with a resolution of the directors dated 1 July 2022.

**SHARIAH COMMITTEE'S REPORT**

In the Name of Allah, The Compassionate, The Most Merciful

Assalamualaikum Warahmatullahi Wabarakatuh

To the shareholder, depositors and customers of Bank Pertanian Malaysia Berhad ("the Bank"):

In compliance with the letter of appointment, we are required to submit the following report in relation to the operations of the Bank.

Firstly, the Shariah Committee was established to ensure that the Bank's Islamic banking business and operational affairs as well as activities are in compliance with Shariah rules and principles. The roles and responsibilities of the Shariah Committee are as prescribed in the Shariah Governance ("SG") issued by BNM, which states that the Shariah Committee is responsible for all Bank decisions, views and opinions relating to Shariah matters. The Shariah Committee endorses Shariah policies and procedures, and reviews reports escalated by the dedicated Shariah functions. The Shariah Committee members rigorously deliberate on issues and recommendations to mitigate Shariah control weaknesses and potential Shariah non-compliances.

The management of the Bank is responsible for ensuring that the Bank conducts its operations in accordance with Shariah principles and with Shariah rulings issued by the Shariah Advisory Council ("SAC") of Bank Negara Malaysia and the Shariah Committee of the Bank. It is our responsibility to form an independent opinion in respect of the operations of the Bank, based on our review of the operations of the Bank and to report to you.

To ensure smoothness and timely execution of our business operation, we had approved a Guideline on the Delegation of Authority empowering the Head of Shariah Department to approve non-substantial variation to Shariah-related matters, and the approvals are reported to us periodically for review and confirmation.

We have assessed the work carried out by Shariah review and Shariah audit which included examining, on a test basis, each type of transaction, the relevant documentations and procedures adopted by the Bank.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**SHARIAH COMMITTEE'S REPORT (cont'd)**

We planned and performed our review so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Bank has not violated the Shariah principles.

In our opinion:

- (a) The contracts, transactions and dealings entered by the Bank during the financial year ended 31 December 2021 that we have reviewed are in compliance with Shariah. For cases which have been identified as not fulfilling certain requirement under Shariah principles and rulings, remedial measures have been identified and ongoing rectification efforts on the affected accounts are currently being implemented. In the event the affected accounts cannot be rectified, the income will not be recognised as the Bank's income.
- (b) The main sources and investments of the Bank disclosed to us conform to the basis that had been approved by us in accordance with Shariah rules and principles.
- (c) The allocation of profit and charging of losses relating to the Bank's assets and liabilities conform to the basis that had been approved by us in accordance with Shariah principles.
- (d) All earnings that have been realised from sources or by means prohibited under Shariah will be channelled for charitable purposes.
- (e) The calculation of zakat is in compliance with Shariah principles.
- (f) We hereby confirm that the overall operations, business, affairs and activities of the Bank are Shariah-compliant and do not involve any material Shariah non-compliance event, except for the matter as set out in Note 38 to the financial statements, in which such matter has been resolved by the Shariah Committee.

We, **TUAN HAJI AZIZI BIN CHE SEMAN** and **Y.M. ENGKU AHMAD FADZIL BIN Y.M. ENGKU ALI**, being two of the members of the Shariah Committee of the Bank, to the best of our knowledge, do hereby confirm on behalf of the members of the Shariah Committee, that the operations of the Bank for the financial year ended 31 December 2021 have been conducted in conformity with Shariah.

**TUAN HAJI AZIZI BIN CHE SEMAN**

Chairman of the Committee

**Y.M. ENGKU AHMAD FADZIL BIN  
Y.M. ENGKU ALI**

**Independent auditors' report to the member of  
Bank Pertanian Malaysia Berhad  
(Incorporated in Malaysia)**

**Report on the audit of the financial statements**

*Opinion*

We have audited the financial statements of Bank Pertanian Malaysia Berhad ("the Bank"), which comprise the statement of financial position of the Bank as at 31 December 2021, and statement of comprehensive income, statement of changes in equity and statement of cash flows of the Bank for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 13 to 171.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Bank as at 31 December 2021, and of its financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards as modified by Bank Negara Malaysia, as disclosed in Note 5(a) to the financial statements, and the requirements of the Companies Act 2016 in Malaysia.

*Basis for opinion*

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Independence and other ethical responsibilities*

We are independent of the Bank in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Registration No: 200801010522 (811810-U)

**Independent auditors' report to the member of  
Bank Pertanian Malaysia Berhad (cont'd.)  
(Incorporated in Malaysia)**

*Information other than the financial statements and auditors' report thereon*

The directors of the Bank are responsible for the other information. The other information comprises the Directors' Report and Shariah Committee's Report, but does not include the financial statements of the Bank and our auditors' report thereon, which we obtained prior to the date of this auditors' report, and the Annual Report, which is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements of the Bank does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Bank, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Bank or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual Report, if we conclude that there is material misstatement therein, we are required to communicate the matter to the directors of the Bank and take appropriate action.

*Responsibilities of the directors for the financial statements*

The directors of the Bank are responsible for the preparation of financial statements of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards as modified by Bank Negara Malaysia, as disclosed in Note 5(a) to the financial statements, and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Bank, the directors are responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Bank or to cease operations, or have no realistic alternative but to do so.

Registration No: 200801010522 (811810-U)

**Independent auditors' report to the member of  
Bank Pertanian Malaysia Berhad (cont'd)  
(Incorporated in Malaysia)**

*Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements of the Bank as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Bank, including the disclosures, and whether the financial statements of the Bank represent the underlying transactions and events in a manner that achieves fair presentation.

Registration No: 200801010522 (811810-U)

**Independent auditors' report to the member of  
Bank Pertanian Malaysia Berhad (cont'd)  
(Incorporated in Malaysia)**

*Auditors' responsibilities for the audit of the financial statements (cont'd)*

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Other matters**

This report is made solely to the member of the Bank, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

(Incorporated in Malaysia)

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2021**

**1. CORPORATE INFORMATION**

Bank Pertanian Malaysia Berhad ("the Bank") is a public limited liability company, incorporated and domiciled in Malaysia.

The principal activities of the Bank are banking, financing, investment and related services as provided under the Bank Pertanian Malaysia Berhad Act, 2008.

On 1 July 2015, the Bank became a full fledged Islamic bank whereby all its activities are conducted in compliance with Shariah principles.

The registered office is at Level 3, Bangunan Agrobank, Leboh Pasar Besar, 50726 Kuala Lumpur, Malaysia.

The principal place of business of the Bank is at Bangunan Agrobank, Leboh Pasar Besar, 50726 Kuala Lumpur, Malaysia.

The immediate and ultimate holding company of the Bank is the Minister of Finance (Incorporated), held on behalf of the Government of Malaysia.

The financial statements have been approved and authorised for issuance by the Board of Directors in accordance with a resolution dated 1 July 2022.

**2. BASIS OF PREPARATION**

The financial statements of the Bank have been prepared under the historical cost convention, unless otherwise stated in the accounting policies. The Bank presents the statement of financial position in order of liquidity.

**2.1 Statement of compliance**

The financial statements of the Bank have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") as modified by Bank Negara Malaysia, as disclosed in Note 5(a), and the requirements of the Companies Act, 2016 in Malaysia.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**2. BASIS OF PREPARATION (cont'd)**

**2.2 Functional and presentation currency**

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Bank's functional currency, and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

**2.3 Change in presentation**

From 1 July 2015, the Bank became a full fledged Islamic bank. The presentation of the financial statements complies with the Guidelines on Financial Reporting for Development Financial Institutions issued by Bank Negara Malaysia ("BNM").

The remaining conventional loans and non-shariah compliant assets are now shown as a separate line item on the face of the statement of financial position and are referred to as 'Other advances'.

**3. SIGNIFICANT ACCOUNTING POLICIES**

**3.1 Changes in accounting policies**

The accounting policies adopted by the Bank are consistent with those adopted in the audited financial statements for the financial year ended 31 December 2020 except for the new Malaysian Financial Reporting Standards ("MFRS"), interpretation and amendments to standards to be applied for the financial periods beginning on 1 January 2021:

Amendments to MFRS 4, MFRS 7, MFRS 9, MFRS 16 and MFRS 139 Profit Rate Benchmark Reform (Phase 2).

The adoption of the above amendments to standards did not have a material impact on the financial statements of the Bank.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies**

**(a) Basis of accounting**

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

**(b) Revenue recognition**

**(i) Profit income**

Profit income is recognised for all profit-bearing financial instruments classified as Debt Instruments at Fair Value through Other Comprehensive Income ("FVOCI") or Financing and Advances using the effective profit method.

The effective profit method is a method of calculating the amortised cost of a financial asset or liability (or group of assets and liabilities) and of allocating the profit income or profit expense over the relevant periods. The effective profit rate is the rate that is used to discount the expected future cash payments or receipts through the expected life of the financial instrument, or when appropriate, a shorter period, to the gross carrying amount of the instrument. The application of the method has the effect of recognising income receivable or expense payable on the instrument evenly in proportion to the amount outstanding over the period to maturity or payment.

In calculating effective profit, the Bank estimates cash flows considering all contractual terms of the financial instrument but excluding future credit losses. Fees, including those for early redemption, are included in the calculation to the extent that they can be measured and are considered to be an integral part of the effective profit rate. Cash flows arising from the direct and incremental costs of issuing financial instruments are also taken into account in the calculation. Where it is not possible to otherwise estimate reliably the cash flows or the expected life of a financial instrument, effective profit is calculated by reference to the payments or receipts specified in the contract, and the full contractual term.

**(ii) Murabahah and Tawarruq**

Murabahah and Tawarruq income is recognised on an effective profit rate basis over the period of the contract based on the financing amounts disbursed.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(b) Revenue recognition (cont'd)**

(iii) Bai-Al Inah and Bai-Bithaman Ajil

Bai-Al Inah and Bai-Bithaman Ajil income is recognised on an effective profit rate basis over the contract term of the financing amount.

(iv) Ujrah

Ujrah income is recognised on an effective profit rate based on residual value and contract term.

(v) Fees and commissions

Financing processing fee is recognised as income based on the contractual arrangement. Government-link corporation ("GLC") services fee is recognised on an accrual basis in accordance with the term of agreement.

Fees and commissions are generally recognised on an accrual basis when the service has been provided. These fees include banking service fees and Ar-Rahnu fees.

(vi) Dividend income

Dividends are recognised when the right to receive payment is established.

(vii) Rental income

Income from rental is recognised on an accrual basis in accordance with the terms of the agreement.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(c) Government grants**

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all conditions attached will be met. Grants from the Government of Malaysia consist of the following:

(i) Government grants - Operating (Note 27)

Operating grants received for capital expenditure are recognised as deferred capital grants in the statement of financial position. The grants are amortised to profit or loss on a systematic basis over the useful life of the assets. Operating grants for development expenditure is deducted from the operating grants upon utilisation.

(ii) Government grants - Launching (Note 28)

Launching grants received for capital expenditure are recognised as deferred capital grants in the statement of financial position. The grants are amortised to profit or loss on a systematic basis over the useful life of the assets. Launching grants for development expenditure is deducted from the launching grants upon utilisation.

(iii) Government grants - Funds (Note 29 (a) - (m))

Government grant funds received to provide financing to eligible customers are recognised as deferred capital grants in the statement of financial position. The government grants is also utilised against credit losses and charges arising from these financing.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(c) Government grants (cont'd)**

(iv) Government grants - financing scheme funds (Note 29 (n) - (z))

The benefit of financing scheme funds at a below-market rate of profit is treated as a Government grant. The financing scheme funds are recognised as a financial liability, and measured in accordance with MFRS 9 Financial Instruments ("MFRS 9"). The Government grant for financing scheme funds are measured at inception as the difference between the initial carrying value of the Government financing determined in accordance with MFRS 9 and the proceeds received. Government grant for financing scheme funds are recognised in profit or loss (Note 12) on a systematic basis over the periods in which the Bank recognised as expenses the related costs for which the grants are intended to compensate.

**(d) Financial assets**

(1) Classification

The Bank classifies its financial assets in the following measurement:

- Those to be measured subsequently at fair value (either through other comprehensive income ("FVOCI") or through profit or loss ("FVTPL")); and
- Those to be measured at amortised cost.

(2) Recognition and de-recognition

Regular purchases and sales of financial assets are recognised on settlement date, the date on which the Bank settles the commitment to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Bank has transferred substantially all the risks and rewards of ownership.

(3) Measurement

At initial recognition, the Bank measures its financial assets at their fair value plus, in the case of a financial asset not at FVTPL, transactions costs that are directly attributable to the acquisition of the financial assets.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

(3) Measurement (cont'd)

**Business model**

The business model reflects how the Bank manages the assets in order to generate cash flows. That is, whether the Bank's objectives are solely to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of "other" business model and measured at FVTPL. Factors considered by the Bank in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. For example, the Bank's business model for the mortgage financing book is to hold to collect contractual cash flows. Another example is the liquidity portfolio of assets, which is held by the Bank as part of liquidity management and is generally classified within the hold to collect and sell business model. Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified in the "other" business model and measured at FVTPL.

**Solely Payments of Principal and Profit Test ("SPPP")**

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank assesses whether the financial instruments' cash flows represent solely payments of principal and profit ("the SPPP test"). In making this assessment, the Bank considers whether the contractual cash flows are consistent with a basic financing arrangement i.e. profit includes only consideration for the time value of money, credit risk, other basic financing risks and a profit margin that is consistent with a basic financing arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic financing arrangement, the related financial asset is classified and measured at FVTPL.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

(3) Measurement (cont'd)

**Debt instruments**

Subsequent measurement of debt instruments depends on the Bank's business model for managing the asset and the cash flow characteristics of the asset. The Bank reclassifies debt investments when, and only when, its business model for managing those assets changes.

There are three measurement categories into which the Bank classifies its debt instruments:

(i) Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent SPPP are measured at amortised cost. Profit income from these financial assets is recognised using the effective profit rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as separate line item in statement of comprehensive income.

(ii) Fair value through other comprehensive income ("FVOCI")

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPP, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, profit income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Profit income from these financial assets is included in "profit income" using the effective profit rate method. Impairment losses are presented as separate line item in statement of comprehensive income.

(iii) Fair value through profit or loss ("FVTPL")

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. The Bank may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Fair value changes is recognised in profit or loss in the period which it arises.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

(3) Measurement (cont'd)

**Equity instruments**

The Bank measures all equity investments at fair value. Where the Bank's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Bank's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in 'net gains and losses on financial instruments' in statement of comprehensive income.

(4) Subsequent measurement – Impairment

**Impairment for debt instruments and financial guarantee contracts**

The Bank assesses on a forward looking basis the expected credit loss ("ECL") associated with its debt instruments carried at amortised cost and at FVOCI and financial guarantee contracts issued. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

ECL represents a probability-weighted estimate of the difference between present value of cash flows according to contract and present value of cash flows the Bank expects to receive, over the remaining life of the financial instrument. For financial guarantee contracts, the ECL is the difference between the expected payments to reimburse the holder of the guaranteed debt instrument less any amounts that the Bank expects to receive from the holder, the customer or any other party.

The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

(4) Subsequent measurement – Impairment (cont'd)

(i) General 3-stage approach

At each reporting date, the Bank measures ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition. For all other financial instruments, a loss allowance at an amount equal to lifetime ECL is required. The Bank applies a 3-stage approach on debt instruments measured at amortised cost and FVOCI, except for those that are under simplified approach, as explained below.

(ii) Simplified approach

The Bank applies MFRS 9 simplified approach to measure ECL which uses a lifetime ECL for trade receivables and other assets.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Significant increase in credit risk ("SICR")**

The Bank considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Bank compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forward-looking information.

The following indicators are incorporated:

- External credit rating (as far as applicable);
- Significant changes in the expected performance and behaviour of the customer, including changes in the payment status of customer in the Bank, committed into fraudulent activities, abandonment of projects and changes in operating results of the customer;
- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the customer/issuer's ability to meet its obligations;
- Actual or expected significant changes in the operating results of the customer;
- Significant increase in credit risks on other financial instruments of the same customer; and
- Significant changes in the value of the collateral supporting the obligations.

Regardless of the analysis above, a significant increase in credit risk is presumed if a customer/issuer is more than 30 days or 1 month past due in making a contractual payment.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Definition of default and credit-impaired financial assets**

The Bank defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of indicators, which include amongst others, the following criteria:

- the customer is unlikely to pay its credit obligations to the Bank in full, without recourse by the Bank to actions such as realising security (if any is held);
- the customer is past due more than 3 months on any material credit obligation to the Bank;
- the customer is past due more than 90 days after maturity date for trade finance and revolving credit facilities;
- Bankruptcy or winding up petition;
- Fraudulent accounts;
- Rescheduled and/or restructured (R&R) for impaired accounts; or
- Companies under PN17 – Listed companies identified by Bursa Malaysia that are in financial distress.

In assessing whether a customer is in default, the Bank considers indicators that are:

- qualitative - e.g. breaches of covenant;
- quantitative - e.g. overdue status and non-payment on another obligation of the same issuer to the Bank; and
- based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances.

The Bank first assesses whether or not objective evidence of impairment exists for financial assets which are individually significant. If the Bank determines that objective evidence of impairment exists, i.e. credit impaired, for an individually-assessed financial asset, a lifetime ECL will be recognised.

Financial assets which are individually significant but not credit-impaired and not individually significant are grouped on the basis of similar credit risk characteristics (such as credit quality, instrument type, credit risk ratings, credit utilisation, customer types and other relevant factors) for collective assessment.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Write off policy**

The Bank writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery.

Indicators that there is no reasonable expectation of recovery include:

- ceasing enforcement activity; and
- where the Bank's recoveries method are foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

**Modification of financing**

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of financings to customers. When this happens, the Bank assesses whether or not the new terms are substantially different to the original terms. The Bank does this by considering, among others, the following factors:

- If the customer is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the customer is expected to be able to pay;
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affect the risk profile of the financing;
- Significant extension of the financing term when the customer is not in financial difficulty;
- Significant change in the profit rate;
- Change in the currency the financing is denominated in; and
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the financing.

If the terms are substantially different, the Bank derecognises the original financial asset and recognises a "new" asset at fair value and recalculates a new effective profit rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Bank also assesses whether or not the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the customer being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss as a gain or loss on derecognition.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Modification of financing (cont'd)**

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Bank recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective profit rate (or credit-adjusted effective profit rate for purchased or originated credit-impaired financial assets).

**De-recognition other than a modification**

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Bank transfers substantially all the risks and rewards of ownership, or (ii) the Bank neither transfer nor retain substantially all the risks and rewards of ownership and the Bank has not retained control.

**Generating the term structure of probability of default**

Month-in-arrears ("MIA") is a primary input into the determination of the term structure of Probability of Default ("PD") for exposures. The Bank collects performance and default information on MIA for each segment.

The Bank employs statistical models to analyse the data collected and generate estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time.

The lifetime PD is developed by applying a maturity profile to the current 12-month PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the financing. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio. This is supported by historical analysis.

The 12-month and lifetime Exposures at Default ("EADs") are determined based on the expected payment profile, which vary by segmentation.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Generating the term structure of probability of default (cont'd)**

This analysis includes the identification and calibration of relationships between changes in default rates and changes in key macro-economic factors as well as in-depth analysis of the impact of certain other factors (e.g. forbearance experience) on the risk of default. For most exposures, key macro-economic indicators include: GDP growth, benchmark profit rates, unemployment rates and others.

The Bank formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios (see below on "Incorporation of forward-looking information"). The Bank then uses these forecasts to adjust its estimates of PDs.

**Determining whether credit risk has increased significantly**

The criteria for determining whether credit risk has increased significantly vary by portfolio and include quantitative changes in PDs and qualitative factors, including a backstop based on delinquency.

The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Bank's quantitative modelling, the remaining lifetime PD is determined to have increased by more than a predetermined percentage/range.

Using its expert credit judgement and, where possible, relevant historical experience, the Bank may determine that an exposure has undergone a significant increase in credit risk based on particular qualitative indicators that it considers are indicative of such and whose effect may not otherwise be fully reflected in its quantitative analysis on a timely basis.

As a backstop, the Bank considers that a significant increase in credit risk occurs no later than when an asset is more than one MIA. Due dates are determined without considering any grace period that might be available to the customer.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Modified financial assets**

The contractual terms of a financing/advances may be modified for a number of reasons, including changing market conditions, customer retention and other factors not related to a current or potential credit deterioration of the customer. An existing financing/advances whose terms have been modified may be derecognised and the renegotiated financing/advances recognised as a new financing/advances at fair value.

The Bank renegotiates financing/advances to customers in financial difficulties to maximise collection opportunities and minimise the risk of default. Financing/advances forbearance is granted on a selective basis if the customer is currently in default on its financing or if there is a high risk of default, there is evidence that the customer or issuer made all reasonable efforts to pay under the original contractual terms and the customer or issuer is expected to be able to meet the revised terms.

The revised terms usually include extending the maturity, changing the timing of profit payments and amending the terms of financing/advances covenants.

For financial assets modified, the estimate of PD reflects whether the modification has improved or restored the Bank's ability to collect principal and profit and the Bank's previous experience of similar forbearance action. As part of this process, the Bank evaluates the customer's payment performance against the modified contractual terms and considers various behavioural indicators.

Generally, forbearance is a qualitative indicator of a significant increase in credit risk and an expectation of forbearance may constitute evidence that an exposure is credit-impaired. A customer needs to demonstrate consistently good payment behaviour over a period of time before the exposure is no longer considered to be credit-impaired/ in default or the PD is considered to have decreased such that the loss allowance reverts to being measured at an amount equal to 12-month ECL.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Incorporation of forward-looking information**

The Bank incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. The Bank formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios.

This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. External information includes economic data and forecasts published by governmental bodies and monetary authorities in Malaysia.

The base case represents a most-likely outcome and is aligned with information used by the Bank for other purposes such as strategic planning and budgeting. The other scenarios represent more optimistic and more pessimistic outcomes. Periodically, the Bank carries out stress testing of more extreme shocks to calibrate its determination of these other representative scenarios.

The Bank has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Measurement of expected credit losses (“ECL”)**

The Bank uses three categories for financial instruments at amortised cost for recognising ECL.

<b>Category</b>	<b>Definition</b>	<b>Basis for recognising</b>
Performing accounts	(i) Accounts that do not have any significant increase in credit risk since initial recognition of the asset which is less likely to turn into delinquent/default; or  (ii) Principal or profit or both is overdue for one (1) installment (including Cashline-i); or  (ii) Other accounts not classified under Stage 2 and 3.	12 month ECL (Stage 1)
Under performing accounts	(i) Principal or profit or both is overdue for two (2) or three (3) installments; or  (ii) Overdue payment within 90 days after maturity date for trade finance and revolving credit facilities (excluding Cashline-i); or  (iii) Fulfill any one of the SICR criteria triggers.	Lifetime ECL – non-credit impaired (Stage 2)
Impaired accounts	(i) Principal or profit or both is overdue for more than three (3) installments; or  (ii) Overdue payment more than 90 days after maturity date for trade finance and revolving credit facilities; or	Lifetime ECL – credit impaired (Stage 3)

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Measurement of expected credit losses (“ECL”) (cont'd)**

<b>Category</b>	<b>Definition</b>	<b>Basis for recognising</b>
Impaired accounts (cont'd)	<p>(iii) For Cashline-i facility, it shall be classified as impaired where the outstanding amount has remained in excess of the approved limit for a period more than 90 days or 3 months; or</p> <p>(iv) Where payments are scheduled on interval of 3 months or longer, the financing is classified as impaired as soon as default occurs (except under specific program stated in para ii above); or</p> <p>(v) Fulfill any one of the qualitative triggers criteria; or</p> <p>(vi) Fulfill any three of the SICR triggers.</p>	

The Bank has not used the low credit risk exemption for any financial instrument.

The key inputs into the measurement of ECL are the term structure of the following

- PD;
- Loss Given Default (“LGD”); and
- EAD.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Measurement of expected credit losses (“ECL”) (cont'd)**

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information as described above.

PD estimates are estimates at a certain date, which are calculated based on statistical rating models, and assessed using rating tools tailored to the various categories of counterparties and exposures. These statistical models are based on internally compiled data comprising both quantitative and qualitative factors. If a counterparty or exposure migrates between rating classes, then this will lead to a change in the estimate of the associated PD. PDs are estimated considering the contractual maturities of exposures and estimated prepayment rates.

LGD is the magnitude of the likely loss if there is a default. The Bank estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the structure, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset. LGD estimates are recalibrated for different economic scenarios. They are calculated on a discounted cash flow basis using the effective profit rate as the discounting factor.

EAD represents the expected exposure in the event of a default. The Bank derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortisation. The EAD of a financial asset is its gross carrying amount. For lending commitments and financial guarantees, the EAD includes the amount drawn, as well as potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts. For some financial assets, EAD is determined by modelling the range of possible exposure outcomes at various points in time using scenario and statistical techniques.

ECL is determined by projecting the PD, LGD and EAD at each future point on a yearly basis individual exposure, or collective segment, and discounting these monthly expected losses back to the reporting date. The discount rate used in the ECL calculation is the original profit rate or an approximation thereof.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(d) Financial assets (cont'd)**

**Measurement of expected credit losses (“ECL”) (cont'd)**

As described above, and subject to using a maximum of a 12-month PD for financial assets for which credit risk has not significantly increased, the Bank measures ECL considering the risk of default over the maximum contractual period (including any customer’s extension options) over which it is exposed to credit risk, even if, for risk management purposes, the Bank considers a longer period. The maximum contractual period extends to the date at which the Bank has the right to require repayment of an advance or terminate a financing commitment or guarantee.

Forward looking economic information is also included in determining the 12 month and lifetime PD, EAD and LGD.

Where modelling of a parameter is carried out on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics that include:

- product/instrument type;
- credit risk grading;
- collateral type;
- date of initial recognition;
- remaining term to maturity;
- industry; and
- geographic location of the customer.

The groupings are subject to regular review to ensure that exposures within a particular group remain appropriately homogeneous.

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(e) Financial liabilities**

Financial liabilities are initially recognised at the fair value of consideration received less directly attributable transaction costs. Subsequent to initial recognition, financial liabilities are measured at amortised cost. Financial liabilities measured at amortised cost include deposits from customers and financial institutions, financing scheme funds and other payables.

Financial liabilities are derecognised when they are redeemed or extinguished.

**(f) Determination of fair value**

The Bank measures financial assets at FVOCI at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the assets or liabilities, or
- (ii) In the absence of a principal market, in the most advantageous market for the assets or liabilities.

The principal or the most advantageous market must be accessible to the Bank.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the assets or liabilities, assuming that market participants act in their economic best profit.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(g) Financial guarantee contracts and financing commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified customer fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure financing, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The expected credit losses under MFRS 9; and
- The premium received on initial recognition less income recognised in accordance with the principles of MFRS 15.

Financing commitments provided by the Bank are measured as the amount of the loss allowance. The Bank has not provided any commitment to provide financing/advances at a below-market profit rate, or that can be settled net in cash or by delivering or issuing another financial instrument.

**(h) Foreign currency**

In preparing the financial statements of the Bank, transactions in currencies other than the Bank's functional currency are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the reporting date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period, except for the differences arising on the translation of non-monetary items in respect of which gains or losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(i) Income tax**

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

(ii) Deferred tax

Deferred tax is provided for, using the “liability” method, on temporary differences as of the reporting period between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax liabilities are recognised for all taxable temporary differences while deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax is not recognised if the temporary differences arising from goodwill or from the initial recognition of an asset or a liability in a transaction which is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit.

The carrying amount of deferred tax assets, if any, is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantially enacted at the reporting period. Deferred tax is recognised in profit or loss, except when it arises from a transaction which is recognised directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Bank intends to settle its current tax assets and liabilities on a net basis.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(j) Employees' benefits**

(i) Short-term benefits

Wages, salaries, other fixed remuneration and bonuses are recognised as expenses in the year that services have been rendered by the employees. Medical leave is recognised when the absences occur.

(ii) Defined contribution plan

The Bank is required by law to make monthly contributions to the Employees Provident Fund (“EPF”) at certain prescribed rates based on the employees’ salaries. Such contributions are recognised as an expense in profit or loss as incurred.

(iii) Retirement benefits

Eligible staff are entitled for a lump sum gratuity payment upon attainment of normal retirement age of 60 years or early retirement age of 45 years for female employees and 50 years for male employees. The gratuity payment is equivalent to 0.75 of their last drawn salary multiplied by the number of years of service and a leave replacement benefit payment equivalent to 4 times their last drawn salary.

The retirement benefit liability recognised in the statement of financial position is the present value of the defined benefit obligation at the end of the reporting period, together with adjustments for actuarial gains or losses and unrecognised past service cost reflecting only the number of years of service completed up to the reporting date.

The defined benefit obligation, calculated using the projected unit credit method, by discounting the estimated future cash outflows using market yields at the end of the reporting period on Government Investment Issues which have currency and terms to maturity approximating the terms of the related liability.

Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognised in other comprehensive income in the period in which they arise. The actuarial gains or losses are not subsequently reclassified to profit or loss in subsequent periods.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(j) Employees' benefits (cont'd)**

(iv) Early retirement scheme ("ERS")

ERS was implemented in June 2021 for eligible employees to achieve optimal headcount. Payments relating to ERS are recognised as expenses in the year the employee's application is approved.

**(k) Impairment of non-financial assets**

The carrying amount of property, plant and equipment and intangible assets are reviewed to determine whether there is any indication of impairment. An impairment loss is recognised in profit or loss whenever the carrying amount of an asset exceeds its recoverable amount.

The recoverable amount is the higher of fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects current market assessment of the time value of money and the risk specific to the asset for which the estimates of future cash flow have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of amortisation or depreciation, if no impairment loss had been recognised. A reversal of an impairment loss is recognised in profit or loss immediately.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(i) Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Freehold land is not depreciated.

Property, plant and equipment are depreciated on a straight-line method at rates calculated to write off the cost less residual value of the assets over their estimated useful lives. The annual depreciation rates used are as follows:

Buildings	2%
Motor vehicles	20%
Furniture and fixtures	20%
Equipment and office machines	10%
Computer hardware	20%

Where parts of items of property, plant and equipment have different useful lives, the cost of the items is allocated on a reasonable basis and is depreciated separately.

At each reporting period, the residual values and useful lives of the property, plant and equipment are reviewed, and the effect of any changes is recognised prospectively. Gain or loss arising from the disposal of an asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset, and is recognised in profit or loss.

Costs of repair and maintenance are charged to profit or loss in the year in which the costs are incurred.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(m) Intangible assets**

Intangible assets consist of computer software which are initially recorded at cost. Subsequent to the recognition, computer software are measured at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is calculated using the straight-line method to allocate the cost of computer software over their estimated useful lives of 3 years. Gain or loss arising from the disposal of the asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset, and is recognised in profit or loss.

Subsequent expenditure on an intangible asset after its purchase or completion is recognised as an expense when it is incurred, unless it is probable that this expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standard of performance and the expenditure can be measured and attributed to the asset reliably.

**(n) Leases**

The Bank assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

*Bank as a lessee*

The Bank applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Bank recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

*i) Right-of-use assets*

The Bank recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Equipment and computer hardware	1 to 5 years
Real estate	2 to 10 years
Leasehold land	60 to 99 years

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(n) Leases (cont'd)**

*Bank as a lessee (cont'd)*

*i) Right-of-use assets (cont'd)*

If ownership of the leased asset transfers to the Bank at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment assessment as described on Note 3.2 (k).

*ii) Lease liabilities*

At the commencement date of the lease, the Bank recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Bank and payments of penalties for terminating the lease, if the lease term reflects the Bank exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Bank uses its incremental financing rate at the lease commencement date because the profit rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of profit and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Bank's right-of-use assets and lease liabilities are disclosed in Note 22.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(n) Leases (cont'd)**

*Bank as a lessee (cont'd)*

*iii) Short-term leases and leases of low-value assets*

The Bank applies the short-term lease recognition exemption to its short-term leases of equipment and computer hardware (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

**(o) Foreclosed properties**

Foreclosed properties are those acquired in order to settle the debts and are stated at the lower of cost and net realisable value.

**(p) Provisions**

Provisions are recognised when there is a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at the end of each reporting period and if it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provisions are reversed.

Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risk specific to the liability.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.2 Summary of significant accounting policies (cont'd)**

**(q) Share capital**

Ordinary shares are classified as equity when there is no contractual obligation to transfer cash or other financial assets. Costs directly attributable to the issuance of new equity shares are taken to equity as a deduction from the proceeds.

**(r) Cash and cash equivalents**

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash on hand, demand deposits and highly liquid investments with original maturities of 3 months or less that are convertible into cash with an insignificant risk of changes in value.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**3.3 Standards issued but not yet effective**

As at the date of authorisation of these financial statements, the following MFRS and amendments to MFRS have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective which have not been adopted by the Bank.

**Effective for financial periods beginning on or after 1 January 2022**

- Amendments to MFRSs contained in the document entitled "Annual Improvements to MFRS Standards 2018-2020"
- Reference to the Conceptual Framework (Amendments to MFRS 3 *Business Combinations*)
- Property, Plant and Equipment - Proceeds before Intended Use (Amendments to MFRS 116 *Property, Plant and Equipment*)
- Onerous Contracts - Cost of Fulfilling a Contract (Amendments to MFRS 137 *Provisions, Contingent Liabilities and Contingent Assets*)

**Effective for financial periods beginning on or after 1 January 2023**

- MFRS 17 *Insurance Contracts*
- Initial Application of MFRS 17 and MFRS 9 - Comparative Information (Amendments to MFRS 17 *Insurance Contracts*)
- Classification of Liabilities as Current or Non-current (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Disclosure of Accounting Policies (Amendments to MFRS 101 *Presentation of Financial Statements*)
- Definition of Accounting Estimates (Amendments to MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112 *Income Taxes*)

**Standard effective on a date to be determined by MASB**

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10 *Consolidated Financial Statements* and MFRS 128 *Investments in Associates and Joint Ventures*)

The Bank plans to adopt the above pronouncements when they become effective in the respective financial periods. These pronouncements are expected to have no significant impact to the financial statements of the Bank upon their initial application.

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENT**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of income, expense, assets and liabilities and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that could require material adjustment to the carrying amount of the asset or liability affected in the future.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENT (cont'd)**

**Critical judgements made in the application of accounting policies**

The following judgements are made by the management in the process of applying the Bank's accounting policies that have the most significant impact on the financial statements.

(a) Measurement of the expected credit losses ("ECL")

The measurement of the ECL allowance for financial assets measured at amortised cost and FVOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 37, which also sets out key sensitivities of the ECL to changes in these elements.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL;
- Establishing groups of similar financial assets for the purposes of measuring ECL; and
- Management overlay due to COVID-19.

(b) Determining the lease term of contracts with renewal and termination options - Bank as lessee

The Bank determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Bank has several lease contracts that include extension and termination options. The Bank applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Bank reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g. construction of significant leasehold improvements or significant customisation to the leased asset).

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENT (cont'd)**

**Critical judgements made in the application of accounting policies (cont'd)**

(b) Determining the lease term of contracts with renewal and termination options - Bank as lessee (cont'd)

**(i) Real Estate Leases and Leasehold Land**

The Bank leases office buildings and houses for the branches, office space and staff accommodation. The leases of office space typically run for a period of two (2) to five (5) years and leases of houses for one (1) to three (3) years, whereas the leasehold land is between 60 to 99 years. Most leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Some leases of office buildings contain extension options exercisable by the Bank up to one (1) year before the end of the non-cancellable contract period. Where practicable, the Bank seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Bank and not by the lessors. The Bank assesses at lease commencement whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its control.

**(ii) Other Assets**

The Bank leases ATM machines and printer with lease term of one (1) to three (3) years. In some cases, the Bank has options to purchase the assets at the end of the contract term. The Bank also leases IT equipments and other office equipments such as water purifiers and printers with contract terms of three (3) to five (5) years. These leases are short term and/or low value items. The Bank has elected not to recognise right-of-use assets and lease liabilities for these leases.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENT (cont'd)**

**Critical judgements made in the application of accounting policies (cont'd)**

(c) Income taxes (Note 13) and Deferred tax (Note 23)

Significant judgement is required in estimating the provision for income taxes as there are interpretations of tax law for which the final outcome has not been established, such as the tax deductibility of expected credit loss on financial instruments. Liabilities for taxation are recognised based on estimates of whether additional taxes will be payable. The estimations process may involve seeking advice of experts, where appropriate.

Where the final liability for taxation assessed by the Inland Revenue Board is different from the amounts that were initially recorded, these differences will affect the income tax expense and deferred tax provisions in the period in which the estimate is revised or when the final tax liability is established.

Deferred tax assets are recognised in respect of tax losses to the extent that it is probable that future taxable profit will be available against which the losses can be utilised. Judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits, together with future tax planning strategies.

**Key sources of estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Bank based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Bank. Such changes are reflected in the assumptions when they occur.

(a) Leases - Estimating the incremental financing rate

The Bank cannot readily determine the profit rate implicit in the lease, therefore, it uses its incremental financing rate ("IFR") to measure lease liabilities. The IFR is the rate of profit that the Bank would have to pay to finance over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IFR therefore reflects what the Bank 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Bank estimates the IFR using observable inputs (such as market profit rate) when available and is required to make certain specific estimates.

**5. SIGNIFICANT CHANGES IN REGULATORY REQUIREMENTS**

**(a) Bank Negara Malaysia ("BNM") policy documents on Financial Reporting**

On 28 July 2020, BNM issued the revised policy documents for Financial Reporting for Development Financial Institutions ("DFIs") which are effective for financial years beginning on or after 1 January 2020.

The policy specifies the accounting treatment with respect to payments which are deferred under moratoriums implemented by the DFIs during the three financial years beginning on or after 1 January 2020, with the details as follows:

(i) Duration of modified accounting treatment

The modified accounting treatment permitted by BNM is in place for three financial years beginning on or after 1 January 2020;

(ii) Comparison of accounting in accordance with MFRS and modified accounting treatment

Accounting treatment in accordance with MFRS

Under paragraph 5.4.3 of MFRS 9 *Financial Instruments*, the modification gain or loss that arises as at the payment moratorium commencement date is recognised in the profit or loss immediately by recalculating the gross carrying amount of the financing based on the present value of the modified cash flows discounted at the financing's original effective profit rate.

Modified accounting treatment in accordance to BNM Guideline

Under paragraph 10.12, no modification gain or loss is recorded against the gross carrying amount of the financing as at the repayment moratorium commencement date.

Instead, a new and modified effective profit rate is calculated that exactly discounts the revised remaining cash flows to the gross carrying amount of the financing as at the payment moratorium commencement date.

(iii) Disclosure

For DFIs applying paragraph 10.12, the DFI shall disclose the application of the modified accounting treatment in the basis of preparation of the interim financial reports and annual financial statements. The disclosure shall also include the duration of the application and a comparison of the financial impact of applying the accounting treatment in accordance with the MFRS and the modified accounting treatment.

The Bank has opted for the adoption of the modified accounting framework for three financial years from the financial year ended 31 December 2020 until the financial year ending 31 December 2022.

Financing and advances	13,225,689	13,197,914
Retained earnings	1,530,734	1,502,959
	<u>1,530,734</u>	<u>1,502,959</u>

**(b) Transitional arrangement for regulatory capital treatment of accounting provision for Development Financial Institution**

On 9 December 2020, BNM issued the policy documents on Transitional Arrangements for Regulatory Capital Treatment of Accounting Provisions for Development Financial Institutions ("DFI").

Prescribed DFIs which elect to apply the transitional arrangements are allowed to add back the Stage 1 and Stage 2 provisions for expected credit losses (ECL) incurred during the year to Tier 1 capital over a four-year period from financial year beginning 2020 or a three-year period from financial year beginning 2021.

The transitional arrangements are consistent with the guidance issued by the Basel Committee on Banking Supervision on "Regulatory treatment of accounting provisions – interim approach and transitional arrangement" (March 2017) and "Measures to reflect the impact of COVID-19" (April 2020).

Pursuant to Paragraph 7.1 of the policy, DFIs which elect to apply the transitional arrangements shall submit a one-time written notification to BNM.

**Management overlay adjustment for expected credit loss amid COVID-19 environment**

As the current MFRS 9 models are not expected to generate levels of expected credit loss ("ECL") with sufficient reliability in view of the unprecedented and on-going COVID-19 pandemic, a management overlay adjustment has been applied to determine a sufficient overall level of ECL as at 31 December 2021 and 31 December 2020.

This overlay adjustment was made to reflect the potential impact to delinquencies and defaults when the various relief and support measures expire in 2022. The overlay adjustment involves significant level of judgement and reflects the management's view of possible severity of the pandemic and paths of recovery in the forward looking assessment for ECL estimation purposes.

Customers who have received repayment support remain in their existing stages unless they have been individually identified as not viable or with subsequent indicators of significant increase in credit risk from each of their pre-COVID-19 status. The overlay adjustment was generally made at portfolio level in determining the sufficient level of ECLs.

The breakdown of ECL allowance as at the reporting date are as follows:

	ECL based on models RM'000	ECL due to COVID-19 management overlay RM'000	ECL charged during the year RM'000
<b>For the year 2021</b>			
ECL allowance	75,164	52,451	127,615
<b>For the year 2020</b>			
ECL allowance	232,891	20,602	253,493

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**13. TAX EXPENSE**

	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
Income tax:		
Malaysian income tax	38,828	10,524
Over provision in prior years	(735)	(1,258)
	<u><b>38,093</b></u>	<u><b>9,266</b></u>
Deferred tax: (Note 23)		
Relating to origination and reversal of temporary differences	(2,673)	3,023
Over provision in prior years	-	(2,748)
	<u><b>(2,673)</b></u>	<u><b>275</b></u>
Tax expense for the year	<u><u><b>35,420</b></u></u>	<u><u><b>9,541</b></u></u>

Income tax is calculated at the Malaysian statutory tax rate of 24% (2020: 24%) of the estimated assessable profit for the year. The reconciliation between tax expense and accounting profit of the Bank multiplied by the applicable corporate tax rate are as follows:

	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
Profit before tax and zakat	<u><u><b>145,713</b></u></u>	<u><u><b>40,326</b></u></u>
Tax at the applicable statutory tax rate of 24% (2020: 24%)	34,971	9,678
Tax effects of:		
Income not subject to tax	(1,719)	(953)
Expenses not deductible for tax purposes	2,903	4,822
Over provision in prior years:		
Income tax	(735)	(1,258)
Deferred tax	-	(2,748)
Tax expense for the year	<u><u><b>35,420</b></u></u>	<u><u><b>9,541</b></u></u>

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**14. ZAKAT**

	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
Zakat for the year	<u><b>3,643</b></u>	<u><b>2,917</b></u>

Zakat represents business zakat payable by the Bank to comply with the principles of Shariah and as approved by the Shariah Committee. The Bank only pays zakat on its business and does not pay zakat on behalf of depositors or shareholder. Zakat provision is initially calculated based on 2.5% of capital growth model method. However, it is compared against 2.5% of the Bank's audited profit before tax ("PBT") for the year, and the higher of the two is the final zakat payable by the Bank.

The Bank distributes the zakat to zakat state authorities and eligible beneficiaries (asnaf) among needy individuals, mosque, non-governmental organisations, higher learning institutions (needy student welfare funds) and schools as guided and approved by the Shariah Committee.

**15. CASH AND SHORT TERM FUNDS**

	<b>2021</b>	<b>2020</b>

(ix) ECL (cont'd)

Financial assets that are purchased or originated and credit-impaired

The Bank does not purchase or originate credit impaired financing and advances.

Impact on movements in gross carrying amount on allowance for financing and advances

The following explains how significant changes in the gross carrying amount of financing and advances during the financial year have contributed to the changes in the allowance for impairment on financing and advances for the Bank.

Overall, the total allowance for impairment on financing and advances for the Bank increased by RM57.89 million from RM557.78 million to RM615.67 million, due to the following:

(a) 12-month ECL (Stage 1) – decrease of RM2.69 million for the Bank, mainly due to:

- Remeasurement of ECL due to improvement in credit quality;
- Financing and advances that were repaid; and
- Partially offset by financing and advances that were newly originated and financing and advances which migrated from Stage 2 and Stage 3 to Stage 1 due to improvement in credit quality.

(b) Lifetime ECL Not Credit-Impaired (Stage 2) – increase of RM29.12 million for the Bank, mainly due to:

- Remeasurement of ECL due to deterioration in credit quality;
- Financing and advances that were new originated; and
- Partially offset by financing and advances that were repaid.

(c) Lifetime ECL Credit-Impaired (Stage 3) – increase of RM31.46 million for the Bank, mainly due to:

- Remeasurement of ECL and financing and advances which migrated into Stage 3 due to deterioration of credit quality;
- Financing and advances that were new originated; and
- Partially offset by financing and advances that were fully repaid and written off.

Stage 1 - 12-month ECL	(19)	(90)
Stage 2 - Lifetime ECL not credit-impaired	(27)	(54)
Stage 3 - Lifetime ECL credit-impaired	(1,476)	(3,191)
Non-Shariah Assets at amortised cost	<u><b>1,902</b></u>	<u><b>3,029</b></u>

Other advances relate to customer loans which are not in compliance with Shariah principles. All income earned during the year from these loans amounting to RM627,749 (2020: RM2,337,261) will be channelled to approved charities.

(ii) Movements in gross impaired Non-Shariah Assets are as follows:

	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
At beginning of the year	4,332	6,332
Additions during the year	545	1,003
Reclassified as non credit-impaired during the year	(64)	(461)
Recoveries during the year	(934)	(1,819)
Amount written off	(1,495)	(723)
At end of the year	<u><b>2,384</b></u>	<u><b>4,332</b></u>
Gross impaired Non-Shariah Assets as a percentage of gross Non-Shariah Assets	<u><b>69.63%</b></u>	<u><b>68.07%</b></u>

Ongoing efforts are made by Special Asset Management Department ("SAMD") and Credit Recovery Centre ("CRC") to reduce the impaired Non-Shariah Assets ("NSA") accounts through rescheduling or restructuring and conversion to Islamic accounts for qualified cases. Where rehabilitative efforts failed, SAMD and CRC will pursue recovery actions, including litigation, until all efforts are exhausted.

**18. OTHER ADVANCES (cont'd)**

(iii) ECL (cont'd)

Financial assets that are purchased or originated and credit-impaired

The Bank does not purchase or originate credit impaired advances.

Impact on movements in gross carrying amount on allowance for other advances

The following explains how significant changes in the gross carrying amount of other advances during the financial year have contributed to the changes in the allowance for impairment on other advances for the Bank.

Overall, the total allowance for impairment on other advances for the Bank decreased by RM1.81 million, due to the following:

- (a) 12-month ECL (Stage 1) – decrease of RM0.07 million for the Bank, mainly due to:
  - Remeasurement of ECL due to improvement in credit quality.
- (b) Lifetime ECL Not Credit-Impaired (Stage 2) – decrease of RM0.03 million for the Bank, mainly due to:
  - Other advances that were repaid.
- (c) Lifetime ECL Credit-Impaired (Stage 3) – decrease of RM1.71 million for the Bank, mainly due to:
  - Other advances that were fully repaid and written off.

Compensation claim	(vi)	123	123
		<u>122,608</u>	<u>86,657</u>

**(i) Donation/charity payable**

	Note	2021 RM'000	2020 RM'000
<b>At 1 January</b>		<b>2,065</b>	<b>67</b>
Addition		629	2,337
Writeback/(Utilisation) during the year:			
Provision for other advances (Note 7(b))	(a)	14	(339)
Acquisition of building, premises and motor vehicles	(b)	(147)	-
Reclass to other advances		(2,064)	-
<b>At 31 December</b>		<b>497</b>	<b>2,065</b>

Donation/charity payable relate to income in respect of loans which are not in compliance with Shariah principle. Non-shariah income ("NSI") is utilised for the following:

- (a) to utilise NSI as a provision for other advances ("NSA") Non-Shariah Assets;
- (b) to distribute NSI to selected Majlis Agama Negeri and charitable organisation for the purpose of acquisition of building or office premises and motor vehicles; or
- (c) to utilise NSI to pay tax on NSI inclusive of tax penalty arising from non declaration of NSI.

**(ii) Provision for re-instatement cost**

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**25. OTHER LIABILITIES (cont'd)**

**(a) Other payables and accruals (cont'd)**

**(iii) Provision for undistributed profit**

	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
<b>At 1 January</b>	<b>1,528</b>	<b>1,528</b>
Transfer to sundry creditors	(1,528)	-
<b>At 31 December</b>	<b>-</b>	<b>1,528</b>

Provision for undistributed profit relates to the under accrual of profit payable on Mudharabah deposits has been transferred to sundry creditors under Unclaimed Monies Payables.

**(iv) Retirement benefits scheme**

(a) The provision for retirement benefits scheme is as follows:

	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
<b>At 1 January</b>	<b>342</b>	<b>300</b>
Current service cost <sup>1</sup>	1	42
<b>At 31 December</b>	<b>343</b>	<b>342</b>

<sup>1</sup> Current service cost in 2021 and 2020 represents an increase in the retirement benefit resulting from an additional year of service rendered by the employees.

(b) The principal assumptions used to determine the estimated costs and obligations are as follows:

	<b>2021</b>	<b>2020</b>
Turnover and early retirement rate		
Age brackets:		
50 years and over	2.11%	2.11%
Salaries increase rate (per annum)	3.24%	5.00%
Average remaining years of service of employees	5.7 years	6.6 years
Discount rate	3.22%	2.27%

(c) Sensitivity analysis for discount rate risk

A one percentage (1%) point decrease or increase in the assumed discount rate would have the following effects:

- (i) Current service cost to increase by RM19,307 (2020: RM23,072) or decrease by RM18,102 (2020: RM21,406) respectively.
- (ii) Provision for a retirement benefit scheme to increase to RM362,059 (2020: RM365,105) or decrease to RM324,650 (2020: RM320,627) respectively.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**34. COMMITMENTS AND CONTINGENCIES (cont'd)**

A summary of the status of material litigations against the Bank is as follows:

**Case 1**

The Bank filed a claim against a customer on 13 August 2015 to recover outstanding financing provided to the customer of approximately RM22.0 million. The customer then filed a counterclaim for approximately RM18.3 million alleging, amongst others, failure of the Bank to discharge its obligations in accordance with the financing documents. The case was fixed for full trial on several dates i.e. 22 and 23 November 2017, 23 until 26 January 2018, 21 until 23 February 2018, 13, 16 until 18 and 23 April 2018, 26 and 27 July 2018, 15 until 17 August 2018, 3 until 5 September 2018, 12 and 13 February 2019, 2 until 4 March 2019, 9 until 11 April 2019, and 16 until 18 April 2019, 5 & 6 September 2019, 22-23 October 2019, 11-13 December 2019, 13 & 16 April 2020 and 12 & 14 May 2020. The trial dates which were fixed on 24-26 November 2020 were vacated and the new trial dates were fixed on 10-12 March 2021 and 6-7 May 2021. Further trial dates are fixed on 11 February 2022 & 25 February 2022, 4 March 2022 and 11 March 2022, 7 June 2022 until 9 June 2022. On the other note, by virtue of the Court Order dated 13 December 2019 which allowed the Customers's application on the amendment of their defence, the Bank had filed an appeal to the Court of Appeal whereby on 3 February 2021, the Bank's appeal was dismissed.

The Bank's solicitors are of the view that the Bank has a good chance of succeeding in its claim and has a fair chance of successfully defending the counter claim by the customer.

The banking facility granted in the above case, is treated as off balance sheet, was disbursed from a fund managed by the Bank for which the Bank earned management fees. All risks including credit risk on unpaid financing are not borne by the Bank.

**Case 2**

The customer filed an application to the Court on 4 June 2018, against the Bank seeking declarations inter alia, that (a) the charge created by the Bank for a financing facility of RM48 million is defective, null and void because the charge was only registered on 3 October 2011 after the termination of the financing facility by the Bank on 25 April 2011; (b) by reason of illegality under Section 214A of the National Land Code whereby any disposal of the estate land requires prior approval from the Estate Land Board, and (c) restitution of all proceeds, benefits, payments and monies amounting to RM18.3 million. The application was fixed for decision on 13 March 2019 whereby the High Court had dismissed the same with costs of RM10,000. The customer appealed to the decision of the High Court and the first case management was on 22 January 2020. On 22 January 2020, the Court further fixed on 28 February 2020 as a hearing date but it was deferred to 13 March 2020. The Court of Appeal had on 13 March 2020 dismissed the customer's appeal with costs of RM20,000 to be paid to the Bank. However, the customer had filed a motion seeking for leave to appeal to the Federal Court against the decision made by the Court of Appeal.

On 8 September 2020, the Federal Court had allowed the customer's leave application. The hearing of the appeal proper before the Federal Court was fixed on 16 March 2021 and was further fixed for decision on 23 July 2021 whereby the Federal Court had dismissed customer's appeal with costs. This case is considered as closed since no further appeal has been made by the customer.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**34. COMMITMENTS AND CONTINGENCIES (cont'd)**

A summary of the status of material litigations against the Bank is as follows: (cont'd)

**Case 3**

The Bank had granted a Bai Bithaman Ajil (BBA) facility of RM5,000,000.00 to the customer (1st defendant) to part finance on the development cost of an oil palm plantation of 1,430 acres located in Sungai Millian, Tangod District, Kinabatangan Sabah. As a consideration to the financing granted, the customer had charged a 3rd party charge on 56 native lands (“properties”), a Debenture and a Corporate Guarantee by the 2nd Defendant.

The Bank then filed a claim against the Defendants on 23 September 2021 as the Defendants had defaulted in their monthly payment. The Defendants filed in the Defence and Counterclaim and alleged amongst other, issues, that the Bank had failed to fully disburse the financing sum within 6 months from the date of the facility agreement as stated in the Letter of Offer (LO), the Bank’s action of holding collateral securities which the value exceeds the amount of the financing and further withholding the remaining financing sum is considered as contractual default in accordance with the LO. Hence, the Defendants alleged that the security documents entered are null and void.

Therefore, the Defendants sought, amongst other, a declaration that the Bank had breached the fundamental terms in the LO, a declaration that the notice of termination issued by the Bank dated 15 July 2021 is null and void, a declaration that the financing and the security documents entered are null and unenforceable, an Order that the Bank is to discharge the charge properties within 2 weeks of the Order, the Bank is to pay a sum of RM14,520,000.00 and or to be assessed being the damages due to the said breach in the LO.

The Bank’s solicitor is of the view that the Bank has a fair chance in winning the case. The hearing of Agrobank’s summary judgment and striking out applications was held on 30 March 2022. The case is now waiting for decision date to be fixed by the Court.

**35. RELATED PARTY DISCLOSURES**

**(a) Parent entity**

The Bank is a Government Linked Corporation, with all of its shares are held by the Minister of Finance (Incorporated) on behalf of the Government of Malaysia. All entities controlled by the Government of Malaysia meet the definition of related parties of the Bank.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS**

**A. FINANCIAL RISK MANAGEMENT**

**(a) General risk management**

**(i) Introduction and overview**

The Bank embraces risk management as an integral component of its business, operations and decision making process to ensure that optimum returns are generated with high regard to uncertainties in the business and market environment. The Bank's business activities and operations involve the use of financial instruments that expose the Bank to a variety of financial and business risks as follows:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk
- Shariah risk

**(ii) Risk management framework**

The Board of Directors ("The Board") is ultimately responsible for the establishment and oversight of the Bank's risk management associated with the Bank's operations and activities. The Board empowers and delegates its authority to various committees to ensure execution of business strategies and operations are adhered to the approved policies and limits set by the Board/Board Risk Management Committee ("BRMC"). At senior management level, the Board empowers the Management Risk Committee ("MRC") and Asset Liability Committee ("ALCO") to monitor, evaluate, strategise and deliberate risk management activities within the respective areas.

The Bank has the Broad Risk Management Framework ("BRMF") that encompasses credit, market, liquidity, operational and Shariah risks as part of its risk governance. The Bank's risk management policies are established to identify and analyse the risks exposed to the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Bank's current strategies, products and services.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(a) General risk management (cont'd)**

**(ii) Risk management framework (cont'd)**

The Bank's risk management policies are established to identify and mitigate all risks faced by the Bank, to set appropriate risk appetite and risk limits as well as to control and monitor risk exposures and adherence to the approved limits.

**(iii) Risk governance framework**

The Board may empower the following committees for the oversight function of risk management matters and activities:

- Board Risk Management Committee ("BRMC")
- Board Credit and Investment Committee ("BCIVC")
- Board Audit Committee ("BAC")

At senior management level the following committees had been established to oversight risk management activities and risk exposures:

- Management Risk Committee ("MRC")
- Asset Liability Committee ("ALCO")
- Management Audit Committee ("MAC")

**(b) Credit risk**

**(i) Nature of credit risk**

The Bank's exposure to credit risk is primarily from lending/financing activities to retail consumers, micro, small and medium-sized enterprises ("SMEs") and corporate customers. Investment in bonds, other marketable securities and other financial/banking instruments, whether they are classified under banking book, may also expose the Bank to credit risk and counterparty credit risk.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(b) Credit risk (cont'd)**

**(ii) Definition of credit risk**

Credit risk is the risk of potential loss due to failure or unwillingness of the customers or counterparties to fulfil their contractual financial obligations as and when they arise.

**(iii) Objective of credit risk management**

The goal of credit risk management is to keep credit risk exposure to an acceptable level and to ensure the returns are commensurate with risk.

**(iv) Management of credit risk**

The management of credit risk is governed by the credit risk management framework which sets out the risk management governance and infrastructure, risk management processes and control responsibilities.

Policies, procedures and guidelines for credit operations are properly documented and are made available through the Bank's intranet and Risk Management Division portal. These policies and procedures are subject to periodical review and enhancement to ensure its relevancy and in line with business directions and market environment.

The methodology applied in measuring the COVID-19 overlay and ECL allowance is explained in Note 6 and Note 37 (A)(b)(v).

**(v) Measurement of credit risk**

**Collateral position in financing and advances**

Credit facilities are granted on the basis of the customer's credit standing, project viability and payment capacity as per the Bank's credit policy. However, due to the nature of its financing, the Bank generally requires collateral against financing and advances to customers in the form of charges over property, other registered securities over assets and guarantees. Estimates of fair value are based on the value of collateral assessed at the time of financing and is revalued once in two years or when a financing is impaired.

**(b) Credit risk (cont'd)**

**(v) Measurement of credit risk (cont'd)**

**Collateral position in financing and advances (cont'd)**

The main types of collateral held by the Bank to mitigate credit risk are as follows:

- (i) Project financing – charges over land, buildings, plant and machinery, fishing vessels, ownership claim over vehicles, term deposits and pledges over shares and marketable securities.
- (ii) Retail financing – charges over land and term deposits for certain types of financing.

	<b>Secured RM'000</b>	<b>Unsecured RM'000</b>	<b>Total RM'000</b>	<b>Financial effect of collateral* %</b>
<b>2021</b>				
Neither past due nor impaired	7,210,953	5,461,532	12,672,485	56.9

**Maximum exposure to credit risk**

The following analysis represents the Bank's maximum exposure to credit risk of on-balance sheet financial assets and off-balance sheet exposure, excluding any collateral held or other credit enhancements. For on-balance sheet financial assets, the exposure to credit risk equals their carrying amount. For off-balance sheet exposure, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the instruments issued are called upon and/or the full amount of the undrawn credit facilities granted to customers.

	<b>Maximum Exposure</b>	
	<b>2021</b>	<b>2020</b>
	<b>RM'000</b>	<b>RM'000</b>
<b>Credit exposure for on-balance sheet items</b>		
Cash and short term funds	1,839,501	1,934,409

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(b) Credit risk (cont'd)**

**(v) Measurement of credit risk (cont'd)**

**Credit quality of gross financing and advances**

All financing, advances and other financing are categorised into 'neither past due nor impaired', 'past due but not impaired' and 'impaired'.

Past due financing refers to financing, advances and other financing that are overdue by one day or more.

Financing, advances and other financing are classified impaired when they fulfill any of the criteria as per disclosed in Note 3.2(d) Measurement of expected credit losses ("ECL").

**Quality classification definitions**

Where ECL model is applied, the credit quality of financial instruments subject to credit risk are assessed by reference to the internal rating system adopted by the Bank, as summarised below:

*Financing and advances and financing commitments and financial guarantee*

<b>Rating classification</b>	<b>Credit grades</b>
Performing	Stage 1
Under performing	Stage 2
Impaired	Stage 3

Other financial instruments

<b>Rating classification</b>	<b>External rating</b>	
	<b>RAM</b>	<b>MARC</b>
Investment grade		
Long Term Rating	A, AA, AAA	A, AA, AAA
Short Term Rating	P1, P2, P3	MARC-1, MARC-2, MARC-3
Non investment grade		
Long Term Rating	B, BB, BBB	B, BB, BBB
Short Term Rating	P4	MARC-4
Impaired	C/D, NP, D	C, SD, D

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(b) Credit risk (cont'd)**

**(v) Measurement of credit risk (cont'd)**

**Credit risk in investment activities**

The credit risk management approach for investment activities is primarily deliberated at the Board Credit and Investment Committee ("BCIVC"). In the case of investment portfolio, the setting of credit limits is done and regularly reviewed by Market Risk Management Department ("MRMD"), as the middle office for treasury operations. Various credit limits on investment exposures are proposed to the Management Risk Committee ("MRC") for endorsement and escalated to BRMC or the Board for approval. Report on compliance of various investment exposure limits are done by MRMD which is presented and deliberated at the Asset Liability Committee ("ALCO") on a monthly basis.

The Bank's investment policy stipulates the minimum investment grade for debt securities, types of permissible transactions, exposure limits for single customer/counterparty, credit rating, industry/sector and risk level (high, medium, low). In addition, the Bank has also set interbank limits for placements of money in various financial institutions which are reviewed on a regular basis to mitigate concentration limits in its investment portfolio.

**Investment portfolio concentration**

The portfolio profile is as follows:

	<b>RM'000</b>	<b>Composition (%)</b>
Corporate sukuk	2,169,882	64
Government Investment Issues ("GII")	1,243,049	36
<b>Carrying amount at 31 December 2021</b>	<b>3,412,931</b>	<b>100</b>
Corporate sukuk	2,124,798	66

**(vi) Macro-economic factors in credit risk**

The macro-economic factor and their impacts are regularly monitored as part of the normal process of the Bank in tracking credit risk and measuring ECL, including the on-going COVID-19 development and impact.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(c) Liquidity risk**

**(i) Nature of liquidity risk**

Liquidity risk relates to the ability of the Bank to maintain sufficient liquid assets to meet current and future financial commitments and obligations (anticipated or unanticipated) when they fall due without incurring unacceptable losses. Liquidity risk may arise when there is a mismatch between funding against lending/financing within predetermined time buckets. The mismatches may lead to the inability for the Bank to fulfil its contractual obligations when they fall due. As such, the Bank has to maintain a portion of liquid assets in terms of cash, cash equivalents and marketable securities to match respective maturity buckets.

**(ii) Definition of liquidity risk**

Liquidity risk is defined as the inability of the Bank to meet timely payment on any of its financial obligations to customers or counterparties when they fall due or the Bank is unable or cannot easily unwind or offset a particular position at/or near the previous market price because of inadequate market depth or because of disruptions in the market place caused by the change in market sentiment or due to a specific event or series of events.

**(iii) Management of liquidity risk**

The management of liquidity risk is governed by the Market and Liquidity Risk Management Framework ("MLRF") which sets out the risk management governance and infrastructure, risk management processes and control responsibilities.

The Board through BRMC approves all policies in relation to liquidity risk management which are regularly reviewed by MRMD ('Market Risk Management Department'). BRMC also oversees the effectiveness and compliance of those policies on a regular basis.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(c) Liquidity risk (cont'd)**

**(iii) Management of liquidity risk (cont'd)**

Senior management is responsible to monitor and oversee liquidity risk exposures through the ALCO using primary tools such as maturity mismatch analysis, funding gaps, maximum cumulative outflows and funding concentration ratios using internal as well as market wide information to address possible liquidity issues. ALCO oversees the Bank's financial position structure with regard to liquidity risk exposures and executes controls, within prudent limits and bucketing to manage risks arising from mismatches of maturities across the financial position structure, as well as from undrawn commitments and other contingent obligations. The day-to-day liquidity requirements and position is managed by Treasury Department ("TD") while MRMD, under Risk Management Division ("RMD") acts as Middle Office in monitoring and reporting liquidity risks to ALCO.

**(iv) Measurement of liquidity risk**

The liquidity risk management of the Bank is aligned with the New Liquidity Framework ("NLF") issued by BNM, and is measured and managed based on projected cash flows. In addition to ensuring compliance with the NLF, the Bank's maintains a liquidity compliance buffer to meet any unexpected cash outflows. The measurement of liquidity risk is done through financial position profiling using predetermined time buckets. The exposure limits for each bucket, in particular within a one year bond is closely monitored and analysed to ensure that the Bank has sufficient cash and liquefiable assets to meet contractual and behavioural maturities/commitments, and to determine the causes and ways to improve the gaps. The Bank maintains sufficient liquid assets (minimum 5% of total deposits) to meet contractual and behavioural maturities and commitments up to one week tenure. For up to one month bucket, the Bank maintains liquid assets of at least 7% of total deposits to meet contractual and behavioural maturities and commitments when they fall due.

**BANK PERTANIAN MALAYSIA BERHAD**  
(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(c) Liquidity risk (cont'd)**

**(v) Contingency funding plan ("CFP")**

The Bank has a Contingency Funding Plan ("CFP") in place to deal with liquidity crisis situations. The CFP enables Management to make timely and well-informed decisions in managing any liquidity crisis caused by the Bank's specific risk adverse positions as well as unfavourable market developments. The Bank sets out early warning indicators through various triggers, crisis escalation processes, a crisis management team and funding strategies to mitigate liquidity crisis situations. The CFP is tested and reviewed regularly to update the latest position and matters in relation to the liquidity risk profile of the Bank.

**(vi) Stress testing on liquidity risk**

As part of liquidity risk management, liquidity risk exposures are also measured through funding concentration, financing deposit ratios, cash and liquid asset ratios. Stress testing is conducted to quantify the worst case scenario of the liquidity position of the Bank based on deposit run-off, market crisis shock, capital erosion and negative publicity. The Bank emphasises the importance of low cost stable and retail deposits as the primary source of funds to finance its lending activities in addition to corporate and other high cost deposits.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(d) Market risk**

**(i) Nature of market risk**

Market risks arises from volatilities in profit rates, equity prices, commodity prices, credit spreads and foreign exchange rates which are inherent in the investment portfolio. The market risk exposure for the Bank relates to all financial assets and liabilities held for investment in the banking book as well as for trading purposes. As the Bank's investment portfolio focuses on profit rate bearing assets and liabilities, movements/changes in profit rates in the market may pose major and significant risk to the fair value of the investment portfolio of the Bank.

**(ii) Definition of market risk**

Market risk is defined as the risk of losses in respect of on and off balance sheet positions arising from unexpected movements in market prices due to volatility in profit rates, equity prices, commodity prices, foreign exchange rates and etc.

**(iii) Management of market risk**

The management of market risks, in particular the profit rate risk is governed by the MLRF which sets out the risk management governance and infrastructure, risk management processes and control responsibilities.

The Board through BRMC approves all policies in relation to market rate risks, in particular the profit rate risk management which are reviewed on a regular basis. BRMC also oversees the effectiveness and compliance of those policies as well as approve new and revised existing policies.

At senior management level, ALCO deliberates market risk management by executing decisions, business strategies and action plans within the policies and guidelines approved by BRMC or the Board.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(d) Market risk (cont'd)**

**(iii) Management of market risk (cont'd)**

The daily management of the investment portfolio is executed by the TD. MRMD acts as the middle office for investment and treasury related activities by executing risk governance and risk assessments on a regular basis. MRMD also provides independent assessment on market risk in relation to investment activities, including recommendation for new acquisitions and evaluation on mark-to-market prices and yield curves on investment returns, in particular for the FVOCI portfolio. MRMD provides monthly report to ALCO and BRMC for investment portfolio governance including the compliance of limits approved by BRMC/Board.

For Bank-wide market risk management, MRMD monitors the profit rate risk sensitivity through the Profit Rate Sensitivity Gap ("PRG"), Earnings at Risk ("EAR") and Duration Weighted Gap ("DWG") regularly and presents reports to ALCO every month. MRMD also signs off new product proposal papers and documents (together with other risk management units) for new products by incorporating relevant assessments and advice on market (and liquidity risks) prior to escalation to higher levels for BNM's approval.

**(iv) Measurement of profit rate risk**

The measurement of the Bank's exposures to profit rate risk is done through the following:

- **Sensitivity analysis**

Sensitivity analysis is used to determine how different values of an independent variable will impact a particular dependent variable under a given set of assumptions. This technique is used within specific boundaries that will depend on one or more input variables, such as the effect of changes in profit rates on bonds prices.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(d) Market risk (cont'd)**

**(iv) Measurement of profit rate risk (cont'd)**

- **Profit rate gap ("PRG") analysis**

Gap analysis is conducted to determine the gap between the Risk Sensitive Assets ("RSAs") and Risk Sensitive Liabilities ("RSLs") in relation to their sensitivity to profit rate movements in the market for any given period of time. The RSAs and RSLs are classified into predetermined buckets based on respective repricing modes which are either contractual or behavioural in nature and in particular to the movements of the Overnight Policy Rate ("OPR") announced by BNM. The gap between RSAs and RSLs for each bucket represents the amounts and percentages of the PRG. For the measurement of PRG, the Bank takes the position of all buckets within one year sukuk and matches it against the predetermined limit to reflect sensitivity to the movement in the Net Profit Income ("NPI") and capital. The Bank establishes a limit of +/-10% on the PRG to effectively mitigate profit rate risk. The non sensitive assets or liabilities which lack definite repricing intervals are assigned to buckets according to relevant judgement and past experience of the Bank.

- **Duration weighted gap ("DWG") analysis**

DWG analysis utilises the time-weighted average maturity of the present value of the cash flows from assets, liabilities and off-balance sheet items. It measures the relative sensitivity of the value of these instruments to changes in profit rates (the average term to repricing), and therefore reflects how changes in profit rates will affect the Bank's economic value, that is, the present value of equity. The Bank applies DWG to measure its capital and balance sheet sensitivity to the profit rate movements for all buckets as per PRG with the incorporation of predetermined weights.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(d) Market risk (cont'd)**

**(iv) Measurement of profit rate risk (cont'd)**

- **Earnings at risk ("EaR") analysis**

EaR analysis aims to quantify the impact on the projection of NPI in the event of an adverse change in prevailing profit rates for a period of 1 year, depending on profit rate sensitivity of the Bank (Asset Sensitive or Liability Sensitive). The Bank assumes a maximum 100 basis point rate movement as the worst case scenario.

- **Value at risk ("VaR") analysis**

The Bank has in place the VaR model in measuring profit rate risk on its investment portfolio, despite not having a trading book portfolio. VaR is a statistical measure of the potential losses that could occur as a result of movements in market rates and prices over a specified time horizon within a given confidence level. The Bank adopted the Historical Simulation Approach for 250 days with 99% confidence level and predetermined VaR limit.

- **Stress test analysis/ simulation analysis**

Stress testing/ simulation analysis are done based on macro economic variables, particularly "yield rates on sukuk values ("Duration") and "beta ratio on equity" as well as possibility of sukuk downgrading impact. The stress testing/simulation analysis employs a range of simulated scenarios on the Bank's investment portfolio to assess the impact on investment values, profitability and capital of the Bank.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(e) Operational risk**

**(i) Nature of operational risk**

Operational risk is inherent in the Bank's business operations and associated with the Bank's involvement with financial instruments, other than credit, market and liquidity risks.

**(ii) Definition of operational risk**

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems and from external events. This definition includes legal risk but excludes strategic and reputational risk.

**(iii) Management of operational risk**

The management of operational risk is governed by the Operational Risk Management Framework ("ORMF") which sets out the risk management governance and infrastructure, risk management processes and control responsibilities which is in line with the regulatory guidelines set by the Bank of International Settlements ("BIS"), Basel Accords and BNM.

The Board through BRMC approves all policies in relation to operational risk management which are reviewed on a regular basis. BRMC also oversees the effectiveness and compliance of those policies as well as approve new and revised policies.

Senior management takes the responsibility of managing the business risks, the ultimate responsibility for establishing and maintaining appropriate risk management processes, making risk management an integral part of the Bank's operations, aligning risk management to internal policies and procedures as well as ensuring that all risk based-limits are adhered to by the business divisions, departments and units.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(e) Operational risk (cont'd)**

**(iv) Measurement of operational risk**

• **Oversight structure and lines of defence**

The interplay between the risk owners at the business level, Risk Management Division ("RMD") and Internal Audit Department ("IAD") forms the framework for the Bank's "three lines of defence" in the managing of operational risks.

The first line of defence is the Business risk owners, who are responsible for the day-to-day operational risk management where Key Performance Indicators ("KPIs"), Key Risk Indicators ("KRIs") and Key Control Indicators ("KCIIs"), Risk Maps, Key Risk Control Self-Assessment ("RCSA") and Incident Management and Data Collection ("IMDC") are in place and aligned to the business objectives.

RMD as the second line of defence is responsible for operational risk management oversight while IAD as the third line of defence is entrusted to perform independent assurance over the effectiveness of the operational risk management initiatives by RMD and the Business Units.

• **Risk management process**

Operational Risk Management ("ORM") refers to the end-to-end process that ensures operational risks are effectively managed from the time they are identified to the time the risks are mitigated within the risk appetite of the Bank. It is the responsibility of everyone at the Bank. This generic process is used to manage operational risks at all levels from units to Head office. The operational risk management process comprises 4 steps namely:

- (i) Risk identification
- (ii) Risk assessment
- (iii) Managing and controlling risk
- (iv) Monitoring and reporting risk

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(e) Operational risk (cont'd)**

**(iv) Measurement of operational risk (cont'd)**

- **Reporting and communication guidelines**

In establishing a sound ORM at the Bank, the reporting and communication lines are extremely important. As operational risk is pervasive across the organisation and the range and type of incidents is broad, from fraud to product and system failures and from errors in the front office to the back office, it is important to share information at all levels. Information sharing should be through both formal reporting lines and face-to-face communication.

- **Culture**

Operational risk culture encompasses general awareness, attitude, behaviour of employees to the key operational risk causes such as people, process, systems and external events.

Adequate awareness and training in operational risk is to be given to the staff and their roles and responsibilities clearly defined. In addition, the performance management process encourages staff to perform and behave in a manner consistent with the Bank's operational risk management objectives. Adequate training is to be provided to the staff to ensure that they have acquired adequate level of knowledge and skill sets to perform their roles and responsibilities in operational risk management.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(f) Capital management**

**Regulatory capital**

BNM sets and monitors capital requirements for the Bank as a whole.

The Bank's regulatory capital is analysed into two tiers:

- Tier 1 capital, which includes ordinary share capital, share premium, perpetual sukuk (which are classified as innovative tier 1 securities), retained earnings, translation reserve and non-controlling interests after deductions for goodwill and intangible assets, and other regulatory adjustments relating to items that are included in equity but are treated differently for capital adequacy purposes.
- Tier 2 capital, which includes qualifying subordinated liabilities, government grants and collective impairment allowances for non-impaired financing.

Various limits are applied to elements of the capital base. The amount of innovative tier 1 securities cannot exceed 15 percent of total tier 1 capital; qualifying tier 2 capital cannot exceed tier 1 capital; and qualifying term subordinated financing capital may not exceed 50 percent of tier 1 capital. There also are restrictions on the amount of collective impairment allowances that may be included as part of tier 2 capital.

The Bank's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Bank recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and advantages and security afforded by a sound capital position.

The Bank and its individually regulated operations have complied with all externally imposed capital requirements throughout the period. Management uses regulatory capital ratios in order to monitor its capital base, and these capital ratios remain the international standards for measuring capital adequacy. The Bank has developed a Capital Management Plan ("CMP") to facilitate effective management of capital and address potential impact from financing deterioration as well as to provide an adequate buffer to support business expansion.

The Bank has elected to apply the Transitional Arrangements for Regulatory Capital Treatment of Accounting Provisions for Development Financial Institutions ("DFI") as stated in Note 5(b) with the financial year ended 31 December 2020 as the Bank's first reporting period of the application.

**BANK PERTANIAN MALAYSIA BERHAD**

(Incorporated in Malaysia)

**37. FINANCIAL INSTRUMENTS (cont'd)**

**A. FINANCIAL RISK MANAGEMENT (cont'd)**

**(f) Capital management (cont'd)**

**Capital allocation**

Capital allocation between specific operations and activities is, to a large extent, driven by optimisation of the return achieved on the capital allocated. The amount of capital allocated to each operation or activity is based primarily upon the regulatory capital, but in some cases the regulatory requirements do not reflect fully the varying degree of risk associated with different activities. In such cases the capital requirements may be varied to reflect differing risk profiles, subject to the overall level of capital to support a particular operation or activity not falling below the minimum required for regulatory purposes. The process of allocating capital to specific operations and activities is subject to review by the ALCO as appropriate.

**Capital Adequacy**

The capital adequacy ratio of the Bank as at the end of the reporting period is as follows:

	<b>2021</b>	<b>2020</b>
	%	%
Before deducting proposed dividend:		
Core capital ratio	<b>21.19</b>	<b>21.24</b>
Risk-weighted capital ratio	<b>25.78</b>	<b>24.45</b>
After deducting proposed dividend:		
Core capital ratio	<b>21.09</b>	<b>21.24</b>
Risk-weighted capital ratio	<b>25.68</b>	<b>24.44</b>

**B. FAIR VALUES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES**

Fair value is the amount at which the financial assets could be exchanged or financial liabilities could be settled, between knowledgeable and willing parties in an arm's length transaction. The information presented herein represents the best estimates of fair values as of the reporting period.

**Fair value hierarchy**

**Determination of fair value and fair value hierarchy**

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets of identical assets or liabilities;
- Level 2: Other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: Techniques which use inputs which have significant effect on the fair value that are not based on observable market data.

**(i) Financial assets and financial liabilities carried at fair value**

Set out below, is a comparison by the class of the fair value of the Bank's financial instruments:

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>
<b>2021</b>				
<b>Financial assets</b>				
FVOCI	269	3,412,931	-	3,413,200
	<hr/>			
<b>2020</b>				
<b>Financial assets</b>				
FVOCI	254	3,205,809	-	3,206,063
	<hr/>

**B. FAIR VALUES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (cont'd)**

**(ii) Financial assets and financial liabilities at carrying amount**

	2021		2020	
	Carrying amount RM'000	Fair value RM'000	Carrying amount RM'000	Fair value RM'000
<b>Financial assets</b>				
Financing and advances	<b>13,126,142</b>	<b>13,650,445</b>	<b>12,667,911</b>	<b>13,140,436</b>
<b>Financial liabilities</b>				
Deposits from customers	8,292,500	8,312,535	9,091,797	9,167,134
Deposit and placement of banks and other financial institutions	2,415,527	2,408,196	2,603,556	2,618,871
	<b>10,708,027</b>	<b>10,720,731</b>	<b>11,695,353</b>	<b>11,786,005</b>

The fair value of financing and advances, deposits from customers and deposit and placement of banks and other financial institutions are at Level 2 (2020: Level 2).

The methods and assumptions used in estimating the fair values of financial instruments are as follows:

**(i) Financial assets at FVOCI**

The fair values of private debt securities and Malaysian government investment issues are determined by reference to the market value of these instruments published by Bond Pricing Agency Malaysia ("BPAM").

The fair value of equities securities are determined based on quoted price from Bursa Malaysia Securities Berhad.

**(ii) Financing and advances**

For fixed-rate financing with maturities within a year, financing and advances at variable rates, the estimated fair values approximate their respective carrying values.

For fixed-rate financing with maturities more than a year, the fair values are estimated based on expected future cash flows of contractual instalments and discounted at prevailing rate at the end of the reporting period offered for similar financing to new customers with similar credit profiles, where applicable.

**B. FAIR VALUES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (cont'd)**

**(ii) Financial assets and financial liabilities at carrying amount (cont'd)**

**(iii) Deposits from customers**

The fair values of deposits from customers with remaining maturity of less than one year are estimated to approximate their carrying amounts. The fair values of deposits with remaining maturities of more than one year are estimated using discounted cash flows based on market rates for similar deposits from customers.

**38. SHARIAH NON COMPLIANT EVENT**

**(1) Nature of Non-Compliant ("SNC") Events**

The Bank has put in place a sound Shariah governance framework to ensure strict adherence to Shariah requirements in its processes. A dedicated Shariah Committee ("SC") provides Shariah oversight on all material Shariah non-compliant risks across the Bank.

SNC event is a result of the Bank's failure to comply with the Shariah rules and principles determined by the relevant Shariah regulatory councils and the Shariah Committee. Any transactions that are suspected to be Shariah non-compliant are reported to the Shariah Committee for their deliberation and conclusion as to whether any Shariah requirements have been breached.

For the financial year ended 31 December 2021, the nature of Shariah non-compliance deliberated by the Shariah Committee was as follows:

**Financing product**

- (i) Ar-Rahnu Qard Shariah non-compliance income.

**Deposit product**

- (i) Cash deposit transaction accepted from non Shariah activity.
- (ii) System auto-charged debiting other charges and crediting hibah into deceased customer's deposit accounts.
- (ii) Tawarruq transaction was not properly executed (absence of second leg).

During the financial year, there were four (4) (2020: 5) SNC events that have been resolved and reported to BNM. The financial impact related to non-shariah compliant income amounted to RM235,080 (2020: RM4,602), mainly from A-Rahnu (Qard) safekeeping fee, which has been transferred to the non-shariah fund accordingly for refund to customer as per Note 25(a)(i).

**39. SIGNIFICANT EVENT**

- (1) Issuance of Sukuk Wakalah of RM0.5 billion in nominal value, pursuant to a Sukuk Wakalah Programme of up to RM1.0 billion in nominal value ("Sukuk Wakalah Programme")**

On 2 November 2021, the Bank issued Sukuk Wakalah in pursuant to Sukuk Wakalah Programme up to RM1.0 billion nominal value established on 18 October 2021 as follows:

- (i) RM0.2 billion with a tenure of 5 years at a fixed profit rate of 3.63% per annum, payable semi-annually; and
- (ii) RM0.3 billion with a tenure of 7 years at a fixed profit rate of 3.90% per annum, payable semi-annually.

Details of the Sukuk Wakalah issued are disclosed in Note 30.
