### 1. What is Hartani-*i*?

- Hartani-*i* provides financing to government servants, private sector employees (permanent or contract), and stable income earners for purchasing agricultural land. The financing calculated on a floating rate basis.
- Floating rate financing refers to a type of financing where the effective profit rate may change during the lifetime of the financing, depending on the Reference Rate [i.e. "Standardized Base Rate (SBR)"]. This change affects the financing's profit calculation, and any adjustments to the payable profit could result in changes to your monthly installment amount.
- The Shariah concept applied is *Tawarruq*. *Tawarruq* consists of two sale and purchase contracts. The first involves the sale of an asset by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same asset to a third party on a cash and spot basis.
