1. What is **Term Financing-i (TF-i)**?

- **TF-i** is a Shariah compliant financing facility provided to the customer to carry out the activities or projects related to the agricultural sector and agro-based industry.
- The profit rate is calculated based on a floating rate, known as the Base Financing Rate (BFR) and may change from time to time.

Applicable Shariah concept

<u>Tawarruq</u>	<u>Wakalah</u>
• The Shariah Concept applied for the above product is <i>Tawarruq</i>. <i>Tawarruq</i> consist of two sale and purchase contracts where the customer purchase the Commodity from the Bank at a sale price (Financing Amount + Profit) on a deferred payment basis and subsequently sells the Commodity to a Commodity Supplier for cash at the Bank's Purchase Price with the objective of obtaining cash.	• Under this facility, the Bank will apply the dual-agency mechanism under the <i>Wakalah</i> concept. The customer appoints the Bank as the customer's agent to purchase the Commodity from the Bank and subsequently sells the Commodity to another Commodity Supplier on behalf of the customer in order to complete the <i>Tawarruq</i> transaction.
